## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-3, 6, 10, 11 and 15 are rejected under 35 U.S.C. 102(b) as being anticipated by Ralph et al., U.S. 6,722,875.

Regarding claims 1, 2, 10, 11, and 15, Ralph et al. discloses in figures 3-5 all the claimed subject matter including a support frame (12) a slide rail (68) a slide (76), a moveable platform (15) and a drive system (36).

As to claims 3 and 6, Ralph et al. discloses a transfer device (28) engaging the slides (via 62) and the drive system being mounted to the drive system (36).

### ***Allowable Subject Matter***

Claims 4, 5, 7-9, 12-14 and 16-19 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

The following is a statement of reasons for the indication of allowable subject matter:

The prior art of record does not disclose or suggest all the claimed subject matter including the transfer device moveable relative to the slide rails.

Art Unit: 3672

The a jack screw block mounted on the transfer device and the drive system having a vertical screw extending axially through the block.

### ***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Bragg et al., U.S. 5,006, 034 dis closes a similar transporter.

Whitwam, U.S. 1,918,161 discloses a similar screw.
